期末 Project 實作過程

Step 2. 新增 swiper-data.js,把 data 建立為一個 json 陣列

Code:

export default data;

```
const data = [
 {
    id: 1,
    remote_url: 'https://is.gd/5c652o',
    target: '_blank',
    image:
      'https://supertaste-shop.tvbs.com.tw/Files/home/image/Home 1840514000.jpg',
  },
  {
    id: 2,
    remote_url: 'https://bit.ly/3mFzCfl',
    target: '_blank',
    image:
      'https://supertaste-shop.tvbs.com.tw/Files/home/image/Home 1111491210.jpg',
 },
  {
    id: 3,
    remote_url: 'https://bit.ly/3F0FoR6',
    target: '_blank',
    image:
      'https://supertaste-shop.tvbs.com.tw/Files/home/image/Home_1026521160.jpg',
 },
  {
    id: 4,
    remote_url: 'https://supertaste-shop.tvbs.com.tw/Product/CategoryF/786',
    target: '_blank',
    image:
      'https://supertaste-shop.tvbs.com.tw/Files/home/image/Home_1026523041.jpg',
 },
  {
    id: 5,
    remote_url: 'https://bit.ly/3h6wQh4',
    target: '_blank',
    image:
      'https://supertaste-shop.tvbs.com.tw/Files/home/image/Home_1026524142.jpg',
 },
];
```
